Re: *BellSouth Telecommunications, Inc.'s Entry Into Long Distance
(InterLATA) Service in Tennessee Pursuant to Section 271 of
the Telecommunications Act of 1996*
Docket No. 97-00309

97-00309 BellSouth 271 Application

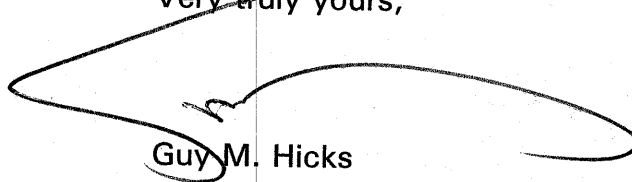

July 2, 2002

Page 2

Dear Counsel:

Enclosed are BellSouth's supplemental responses to Consolidated CLEC 1st Data Requests Items No. 3, 7, 8, 44 and 60. The attachment to the response to Item 7 contains proprietary information, is being provided to you under separate cover (with the exception of Mr. Isar), and is subject to the terms of the Protective Order entered in this proceeding. Additional supplemental responses will be provided to you as soon as possible.

Very truly yours,

A handwritten signature in black ink, appearing to be "Guy M. Hicks", is written over a horizontal line. The signature is stylized with a large, sweeping loop on the left side.

Guy M. Hicks

BellSouth Telecommunications, Inc.
Tennessee Regulatory Authority
Docket No. 97-00309
Consolidated CLEC 1st Data Requests
May 23, 2002
SUPPLEMENTAL Item No. 3
Page 1 of 1

REQUEST: Please provide supplemental responses to covering the period July 1, 2001 to April 30, 2002, to Interrogatories Nos. 5, 6, 16, 17, and 18, from AT&T, SECCA, Brooks Fiber, MCImetro, WorldCom, Time Warner, XO Tennessee, and Covad which were served on August 21, 2001.

RESPONSE: See attached.

BellSouth Telecommunications, Inc.
Tennessee Regulatory Authority
Docket No. 97-00309
Consolidated CLEC 1st Data Requests
May 23, 2002
SUPPLEMENTAL Item No. 3
ATTACHMENT

REQUEST: For the months of January 2001 through July 2001, please state, by month, the percentage of coordinated cutovers that involved IDLC in Tennessee and in each of the other states in BellSouth's region.

SUPPLEMENTAL RESPONSE COVERING THE PERIOD OCTOBER 1, 2001 TO APRIL 30, 2002.

The systems in which the requested information is retained, only retains this type of information for 60 days. Consequently, the data for August 2001 through March 2002 is not currently in BellSouth's possession, custody or control. In BellSouth's previous work effort, BellSouth manually reviewed every order involving Coordinated Cutovers for these months in all nine states to identify whether IDLC was involved.

Below is a table summarizing the data for coordinated cutovers that involved IDLC in each of the other states in BellSouth's region for the months available.

STATE	7/01	04/02
AL	9.4%	0%
GA	15.4%	28.8%
KY	50%	0%
LA	4.6%	10.9%
MS	15%	50%
NC / SC	26.5%	23.7%
FL	40.5%	34.3%
TN	19.1%	20.6%

REQUEST: From the time period July 2001 to the present, please describe:

1. How many separate times BellSouth disconnected interconnection trunks in Tennessee and each of the other states in BellSouth's region. This includes reducing the size of existing trunk groups by disconnecting members of the trunk group;
2. In what specific locations did BellSouth disconnect interconnection trunks in Tennessee and each of the other states in BellSouth's region;
3. Which of the trunk disconnects provided in question 1 were AT&T and how many days notice did we give them?
4. In how many of these instances did BellSouth await a response from AT&T that the disconnect was appropriate?
5. What method of communication does BellSouth utilize to communicate such disconnect activities to AT&T?

RESPONSE:

1.

Alabama	175	Mississippi	38
Florida	786	North Carolina	265
Georgia	525	South Carolina	103
Kentucky	61	Tennessee	180
Louisiana	116		
2. This information is proprietary and the attached is being provided subject to the terms of the Protective Order entered in this proceeding.
3. Of the number of times trunks were disconnected in each state in response to question 1, the following are the number of times BellSouth disconnected AT&T trunks:

Florida	108	North Carolina	25
Georgia	2	South Carolina	7
Kentucky	8	Tennessee	15
Louisiana	3		

For each of the above disconnects, the attached proprietary information contains the dates the ASR was sent to AT&T, the date the FOC was received and the Due Date of the disconnect.

RESPONSE: (Cont.)

4. BellSouth awaited a response from AT&T in all instances.
5. BellSouth utilizes the Access Service Request (ASR) process to communicate the specific disconnect activities. For situations involving underutilization, the Local Interconnection Service Center (LISC) Project Manager calls the CLEC to discuss the underutilization of the trunk group and the number of trunks that BellSouth wishes to disconnect. The information is sent by e-mail or by facsimile to the designated interface. The CLEC is asked to provide concurrence with the disconnect in 7 business days or to provide specific information on additional traffic that it is to bring on to the trunk group.

PROPRIETARY

REQUEST: Describe the process used by BellSouth for determining the date when BellSouth begins charging CLECs for power usage.

- (a) Do these charges begin at the time that power is drained by the CLEC or when the CLEC accepts the collocation cage?
- (b) Please identify, by collocation site, the actual power drain incurred by AT&T and the corresponding feeder fuse size placed, as follows:

<i>S I T E - X</i>	<i>Actual Drain</i>	<i>Fused Ampere</i>
When Power Charges begin (date)		
At 3 months after cage acceptance		
At 6 months after cage acceptance		
At 1 year after cage acceptance		
At 18 months after cage acceptance		

- RESPONSE: (a) BellSouth begins billing the CLEC for the power it requested on its BFFO at the Space Ready Date or the date that the CLEC accepts the space, whichever is sooner.
- (b) BellSouth does not measure CLEC power drains and does not have historical records of CLEC's power drains. Listed below is the equipment drain and protection device size requested by AT&T in its collocation applications.

<i>S I T E - X</i>	<i>L-1 Drain Requested by AT&T</i>	<i>Protection Device Size Requested by AT&T</i>

REQUEST: From January 2002 to April 2002, for each individual state in BellSouth's region and for the BellSouth region in total, please identify the volume of LSRs (segregated by manual and electronic) and the volume of issued service orders by interface (i.e., LENS, TAG, EDI, and all interfaces) for the following categories:

- a. LNP;
- b. UNE;
- c. Business Resale;
- d. Residence Resale; and
- e. Total (i.e., UNE, Business Resale, and Residential Resale combined)

RESPONSE: Please find attached BellSouth's aggregate volume for LSRs submitted manually from January 2002 to April 2002. The aggregate volumes include the following categories: LNP, UNE, Business Resale, and Residence Resale. Also included are the service order volumes for the respective categories.

Please see attached for January to April 2002 state specific manual LSR volumes.

Please see response to Data Request No. 43 for the volume of LSRs submitted electronically and the volume of issued service orders as requested.

REQUEST: State whether you contend that cageless physical collocation may not be provisioned in a shorter interval than caged physical collocation. If so, state each and every fact that supports your position.

RESPONSE: BellSouth does not contend that cageless physical collocation may not be provisioned in a shorter interval than caged physical collocation. Most of the state commissions in the BellSouth Region that have ordered specific provisioning intervals for physical collocation have recognized that additional time is required to construct the cage for a CLEC that requests a caged enclosure for its collocation arrangement. Therefore, BellSouth would support a cageless collocation interval of thirty (30) calendar days from receipt of a Bona Fide Firm Order when conditioned space is available and the CLEC installs its own rack/bays and a caged collocation interval of ninety (90) calendar days from receipt of a Bona Fide Firm Order in the state of Tennessee.
